

Love Formula PRINT AND PLAY

The following pages contain all the cards you'll need to play Love Formula! I recommend that you put each printed card in a card sleeve with a sturdier card from another game that you own. Every card has a generic background image that consists of pink, purple, and blue stripes. The cards state that the art was done by me, Dylan Gwin, because I created that background image. If and when the game goes into production, all generic background images will be replaced with actual art. Credit for the creation of the text overlays goes to Haidee Pan.

Enjoy the game!
